

# The Travel

They were there - one day - suddenly - out of nowhere - and took me with!  
They not asked - I not disagreed - they took me along on a travel - why me?

"Why me?"  
 "We've not chosen you."  
 "But I'm here?"  
 "Yes."  
 "So, you have chosen me?"  
 "No."  
 "Please,....."  
 "You've chosen us."  
 "Sorry, but I've chosen nobody?"  
 "Oh, you have!"  
 "When?"  
 "Just now."  
 "Where will we go?"  
 "Wherever you like."  
 "Away from here."  
 "Then we should start....."  
  
 "Should I close my eyes?"  
 "No, on the contrary - you should see....."  
 "Have I to take something?"  
 "No, on the contrary - you should be fully conscious....."  
 "We have no mean of transportation?"  
 "We need none - you should do it by your own....."  
 "But, I thought.....away, away from here, I thought.....really away, up there, up there to the stars....."  
 "There we will go...."  
 "But we have no spaceship, no drugs, no music, and I shall not close my eyes? How this should go?"  
 "Release yourself, let loose, drop, let go.... - that's all....."  
 "That's not that easy for me...."  
 "I know, but I will help you....."  
 "How?"

### That Way!

"Do you see this?"  
 "Yes, it's beautiful, so beautiful and in the same time so sad. An act of destruction that forms something such beautiful - it's so wonderful.....many died, or?"  
 "Billions, but they died long before this happened. This is only the last act."  
 "Yes, I know, but that makes it not easier. There are so many things out here which are so wonderful, so astonishing, so fascinating - and so often it's related to destruction, this is only a wisp of wind compared with other things, but even this....."  
 "You know that there would be nothing....."  
 "Yes, nothing without destruction. Forming and destruction - both is needed...."  
 "Should we go back?"  
 "NO! Never I wanna go back - and nothing would change, would I go back....."  
 "No, nothing would change, that's how the things happen, since a very long time, till a very long time - what shall we do?"  
 "Can we go to the beginning and to the end? Can we see the everything?"  
 "We can do whatever you want."  
 "Than let us stay here for a while. I will try to open myself to this view....."  
 "That's a good idea. Take your time, 'cause there's no time any longer....."

"I know, because we not really moved in space, only in the time - or?"

"Yes, only in time."

N.B.: I will stop with this part tonight, because I will end the complete part "The Day, When Nobody Died". With this part I had my problems. I worked only a few days on it. I see this story more as a movie, an animated movie or with a lot of special effects. It would be possible to describe the things - sure, but I'm not sure if I would like to write in such a way. But maybe I will continue with this idea later.....
